

2009 MEMBERSHIP BENEFITS & INFORMATION

ANNUAL INFORMATION & MEETINGS

To keep the WWRA membership informed we provide a complete presentation on how and why we allocate the funding we gather for the maintenance and upgrade of our radio system. Since the meetings are only once annually we do our best to make the best of our time together with occasional guest speakers, complete briefings on operations, raffles and door prizes. Membership packages include Family Membership at same costs under one roof, Code Cards & Auto-patch.

REPEATERS, CONTROLLERS, TEST EQUIPMENT & ANTENNAE:

The WWRA technical staff endeavors to maintain the highest quality repeater system performance by investing time and effort into the best equipment available to the amateur community.

SHOW YOUR WWRA SUPPORT:

You can go on our website <http://www.ww7ra.org> and purchase all types of WWRA merchandise including but not limited to T-shirts, cups, steins, hats, bags, etc.

All profits go to support the repeater system

<http://www.ww7ra.org>

WEBSITE: which provides many association facts; constitution & by-laws, history, technical reports, schematics, member rosters, meeting minutes, photos of members and equipment, site photos, current ops work, archived operations work, technical manuals, updated status of repeater system and so forth. A new addition for 2009 will be an online newsletter keeping members informed.

SYSTEM FEATURES

- ❑ AUTOMATIC POSITION REPORTING SYSTEM (APRS)
- ❑ WEATHER digital & voice
- ❑ LONG DISTANCE AUTO-PATCH on VHF and UHF REPEATERS
- ❑ Separate VHF & UHF REPEATER.
- ❑ FINGERPRINT transmitters

ADDITIONAL REPEATER FEATURES:

Most users of the WWRA repeaters are primarily interested in just carrying on QSO's with their local friends. We do have other capabilities, which you may find will expand your amateur radio horizons or fit in with your particular interests. The ops committee carries on an ongoing improvement quest to keep the WWRA repeaters on the cutting edge. We did have Echolink on UHF for over 4-years but only recently put it on the backburner due to low usage, however the system remains Echolink ready waiting for a champion. We can help anyone with interest to be an ops member and run Echolink.
